PROJECT

CUH_HUB (E-COMMERCE MERN STACK WEB APP)

GitHub URL: <https://github.com/Aban-Dubey/cuh-hub-web>

- Spearheaded backend development for "cuh_hub," Web App.
- Engineered distinct Node.js and Express servers for each platform, leveraging MongoDB on Amazon servers through MongoDB Atlas.
- Implemented diverse JavaScript controllers, optimizing the handling of requests and responses for various models and ensuring efficient management of backend operations.
